## EMPLOYMENT & PROJECTS

### 2012 - Present - Below The Fold Web Design

Partner & Lead Web Developer.

The creation of an small web design studio. Working as part of a three person team, designing and developing websites for companies and charities within the Sheffield area.

### #NotDriving

The design, development and implementation of a "Web Refresh". Using HTML5, CSS3, MySQL and PHP to create a more modern, responsive and engaging design.

### Sheffield On a Plate

The design and development of a modern responsive website, to be updated and maintained by a group of Hallam students. The project involves on going support and yearly tuition lessons for new students.

### Oxjam Steel City 2013

A redesign and development of the Oxjam Steel City website. The design needed to modernise the site using the new Oxjam branding guidelines, making it feel part of the wider Oxjam brand while also giving Oxjam Steel City its own identity. To enable the site to be easy to maintain and update for the Oxjam volunteers the perch content management system was used.
